### **BlueWave Computing Named Top 25 Small Business By Cobb Chamber and AJC**

ATLANTA, GA – June 6, 2012 -- BlueWave Computing, LLC, Atlanta's leader in business IT support, cloud computing and managed services, was named one of Cobb's Top 25 Small Businesses of the Year by the Cobb Chamber of Commerce and the Atlanta Journal Constitution.

Cobb County businesses were nominated earlier this year and following an evaluation by an independent panel of judges, BlueWave Computing was named as one of the Top 25 companies. Selection criteria included business growth, financial standing, innovative services, and contributions to community projects as well as overall management philosophy. This marks the fifth year BlueWave Computing has been named to the list of Top 25 Small Businesses in Cobb County and the first year of recognition in the Top 5 designation.

"It is a great honor to be considered for the Small Business of the Year award by the Cobb County Chamber of Commerce. We consider Cobb County our home and attribute BlueWave's continued success to the strong support of our partners, including the Cobb County Chamber of Commerce, our clients and our employees," said Dr. Steven Vicinanza, BlueWave Computing's founder and CEO. "We work hard on behalf of our constituency to be the best information technology partner for our clients while providing ongoing employment opportunities to some of the top talent in our community."

The Top 25 were recognized at the Cobb Chamber's First Monday Breakfast on June 4. The Cobb Chamber of Commerce represents Cobb County's diverse, dynamic business community. The Cobb Chamber is a member-supported business organization working to maintain a healthy economy by bringing business and industry to the area, helping established firms grow and building the community through outreach and service.

In addition to BlueWave Computing's multi-year designation as a Top 25 small business in Cobb County, BlueWave has also been named to the Inc. 500/5000 list in 2008, 2009, 2010, and 2011, the Atlanta Consumers' Choice Award in 2010 and 2011, the AJC Best Workplace award in 2011, and the CRN Fast Growth 100 award in 2010 and 2011.
